Residents of Kaalawai Object to Emergency Institution.

IT WILL BREAK UP THEIR HOMES

THEY CANNOT SEE WHY HOS-PITAL CANNOT BE LOCAT-ED ELSEWHERE.

Point Out That They Have Improved Property Beyond Diamond Head and That Their Efforts Will Be Despoiled by the Hospital.

Residents of the district facing upon the new boulevard beyond an i around Diamond Head are up in arms on account of the suggestion that the Territorial lands near their property may be taken by the United States Government and utilized for an emergency hospital. They understand the term "emergency hospital" to mean an institution in which patients afflicted with contagious diseases will be confined. Should such be established next to their homes they Society at Punahou Hall this evening. foresee a depreciation in the value of their properties, danger to themof their properties, danger to them-selves and families and probably the GERMANY AROUSED necessity of abandoning their homes

for other localities. The region between Kapiolani Park and the boundary of Walalae, and around almost to Telegraph Hill has in the past few years been occupied and created into one of the most desirable residence sections of the city's suburbs. As a matter of fact, Kaalawai, the locality in the center of the neighborhood, bordering directly on the proposed site of the emergency hospital, has for years been occupied by citizens who had sought it out as a quiet place for residence The bride came in leaning on the They will leave today for Ahui- purposes. Wilcox, Henry Bertlemann, Henry Holmes and Mrs. James Campbell.

"It is like this," said a resident of the district last night; "I have purchased land out there, built a home, improved my grounds and have the permanent residence of myself and family there. Others have done the same. We have built up a desirable residence community and by co-operative effort have enhanced the value of property in the neighborhoodnot ours alone, but that of the Territorial Government and adjacent private holdings.

"The value of the property in the district was enhanced by the establishment of a good road around the seaside of Diamond Head, placing the residence section in immediate proximity to a satisfactory thoroughfare. This new road has become a pleasure boulevard, being used extensively by people from the city on Sundays and colldays while out on their pleasure drives. As a matter of fact the neighborhood has become the one in the vicinity of Honolulu where the dolce far niente impulses of the best people of Honolulu are gratified in Sunday drives and lefsurely excursions.

"It was the hope of the people of Kaalawai and neighborhood that the Rapid Transit Company would soon lay a track to the homesteads out there, and we have had every assnance from the company that such would be done. Should this hospital for contagious diseases go in there it will simply mean that we will have to get out. I certainly will not leave not believe anyone else in civilization

Amended Charter Passed Paragraph by Paragraph and as a Whole-Some Feeling Over Matter of the Parsonage at Kohala.

The third session of the Sixth Diocesan Synod of the Anglican Church in Hawaii was held in the school room of the Priory of St. Andrew's

Cathedral last evening. Bishop Willis, in a few remarks of the evening, said that Cushing's Manual had not been included among the books which had been considered becessary to his education, and that he might be a little behind in the matter of parliamentary proceedings. He expressed it as his wish to learn, however, and hoped the deliberations of the Synod would not be materially interfered with by the absence of the famous book referred to. It was shortly after this that Synodsman George Davies announced that he had been consuiting Cushing and that he had a Manual with him.
